

Co-Sponsored Programs

The Gilford Public Library welcomes initiatives that are jointly sponsored by other agencies, departments, and community organizations provided that the programs are compatible with the Library's mission and vision. The Library will publicize the programs in the same ways other library programs are publicized.

The Library will have a library representative available during the program and expects the other organization to provide a contact person who is authorized to make decisions and will attend the program. The organization is also expected to coordinate and communicate with the library liaison in planning and promotion of the program.

The Library must approve the sale of any items beforehand.
